SUMMARY

B.Tech Computer Science student specializing in AI & ML, graduating in 2027, with skills in Python, SQL, Power BI, and model fine-tuning. Projects span data analytics, AI applications, workflow automation, IoT, and web development.

EDUCATION

Vellore Institute of Technology, Bhopal Sep 2023 - Sep 2027
B.Tech in Computer Science and Engineering (AI & ML)

Tagore Public School, Palwal Aug 2020 - May 2022
12th Standard

EXPERIENCE

Data Analyst Intern - Worthwell Papers Pvt. Ltd. May 2026 - Aug 2026
- Automated lead capture from 2 channels, WhatsApp and website enquiries, using n8n and Google Apps Script to clean and consolidate records in Google Sheets for sales reporting.
- Implemented conversation tracking and deduplication; analyzed enquiry volume and response times for sales follow-up.

Web Developer Intern - Lets Make Company Jan 2026 - Apr 2026
- Developed a tax calculator using PHP and JavaScript to process user inputs and present calculated results.
- Integrated enquiry forms with a custom CRM via REST APIs, replacing manual lead entry with automated capture.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS, shadcn/ui, Vite
Backend and Languages: Python, FastAPI, Flask, Node.js, PHP, SQL, C++, Java, REST APIs
Databases and Analytics: PostgreSQL, MySQL, Supabase, MongoDB, ChromaDB, ETL, Power BI, Excel
AI and Automation: AI/ML, Model Fine-tuning, LangChain, RAG, Ollama, Qwen, n8n, OpenCV
Tools and Testing: Git, GitHub, npm, pytest, HTTPX, SQLGlot, Google Apps Script, AWS (EC2, S3)
Certifications: Google IT Support Professional Certificate, AWS Solutions Architect

PROJECTS

Ask your data - Ecommerce Text-to-SQL | *React, FastAPI, PostgreSQL, Ollama/Qwen* | **GitHub**
- Created a React/FastAPI analytics chat across 4 PostgreSQL tables with 450 synthetic orders and 1,129 order items, enabling natural-language queries, CSV exports, and SQL inspection.
- Validated generated SQL against live schemas and enforced read-only queries with default limits of 200 rows and a 10-second statement timeout.
- Added tests for 13 supported SQL queries and 38 unsafe or invalid cases, plus mocked API tests with pytest and HTTPX.

MediWise - Medical Report RAG Chatbot | *React, FastAPI, LangChain, ChromaDB, Gemini* | **GitHub**
- Engineered a medical PDF RAG pipeline using text extraction, chunking, embeddings, and semantic search.
- Connected Gemini through LangChain to a streaming React interface supporting responses in 2 languages: English and Hindi.

ManoSutra AI | *Arduino, OpenCV, React, MySQL, MTCNN, Flask* | LinkedIn Post
- Combined 2 input streams, EEG signals and facial-recognition data, for stress and focus analysis through a React frontend, Flask backend, and MySQL database.

LEADERSHIP EXPERIENCE

Founding Member & IoT Lead - Mentroid Sep 2025 - Present
- Developed client websites and interactive dashboards with React.js, Next.js, and JavaScript as part of technology projects for approximately 8 clients.
- Lead teams of approximately 4 members per project, translating client requirements into web interfaces and coordinating web development and IoT initiatives.

Core Member, Event Management - UX Club Jan 2025 - Apr 2026
- Organized 3 events with 380+ registrations; judged 50+ submissions and built the Baazigar 2.0 QR gaming website.

Team Lead, Technical Team - Defence Warrior Club Aug 2025 - Apr 2026
- Managed registration, verification, and technical operations for a Cybercrime session with 150+ participants, maintaining zero technical downtime during the event.

ACHIEVEMENTS

Earned the **NPTEL IoT certification from IIT Kharagpur**, ranking in the **top 5% in India**.
Secured **All India Rank 183** in the Bharat Space Education Research Centre Winter Internship selection exam.
